IT Project Manager

East Jakarta, Indonesia | +62 897 3334 804 | herdiansyaharip@gmail.com | [linkedin.com/in/arif-herdiansyah-b713041b4](https://www.linkedin.com/in/arif-herdiansyah-b713041b4)

Professional Summary

IT Project Manager with 3+ years of experience delivering enterprise and internal systems across SOEs, aviation, and large-scale operational environments. Strong in project coordination, requirement management, stakeholder alignment, and UAT leadership, with hands-on ownership from planning to go-live.

Experienced in working closely with business users, finance, compliance teams, and developers to ensure projects are delivered on time, meet requirements, and are ready for real-world use.

Core Skills

- Project Management & Delivery: Project Planning, Timeline Management, Scope Control, Risk & Issue Tracking, Change Management
- Stakeholder & Requirement Management: Requirement Gathering, Stakeholder Communication, Cross-functional Coordination
- System Delivery & UAT: UAT Planning & Execution, User Acceptance Testing, Go-Live Support, Documentation
- Quality & Process Improvement: Functional Testing, Test Case Design, Defect Tracking, Process Improvement
- Methodologies & Tools: Agile/Scrum, SDLC, Jira, Trello, TestRail, Microsoft Excel, Google Workspace, CMS

Professional Experience

Unictive — Jakarta, Indonesia

IT Project Manager | Jul 2023 – Present

- Coordinated cross-functional IT projects to deliver milestones on schedule.
- Designed and executed test cases for new features; identified critical bugs pre-release.
- Partnered with developers on fixes; contributed to ~30% application performance improvement.
- Compiled weekly project status reports for stakeholders and management.
- Introduced process optimizations that reduced dev cycle delays by ~15%.
- Owned project plans & deliverable tracking (Trello/Excel); facilitated sprint reviews & minutes.

PT HM Sampoerna Tbk.

Retail Engagement Executive | Jan 2023 – Mar 2023

- Managed relationships with 50+ retail partners; executed trade & engagement programs.
- Deployed POSM at key locations and ensured pricing compliance with national strategy.

PT Shopee International Indonesia — Jakarta, Indonesia

Quality Assurance – Seller Chat | Aug 2021 – Oct 2022

- Monitored 200+ chat interactions/week for service quality & SOP compliance.
- Led root-cause analysis on low-rating cases; presented weekly QA insights.
- Collaborated with SOP, training, and product teams to standardize quality.

Operations Analyst – Cross Border | Oct 2020 – Aug 2021

- Supported 300+ users/day with ~95% satisfaction; coordinated multi-team issue resolution.
- Maintained case histories and knowledge documentation to speed resolution time.

Projects (Unictive)

Pertamina — Sistem Investasi Informasi Pertamina (Feb 2025 – Present)

Central platform to monitor projects and investments across Pertamina subholdings; portfolio dashboards and consolidated reporting.

- Gathered requirements with subholding PMOs; defined data fields (project, budget, realization, ROI) and acceptance criteria.
- Coordinated integrations with finance/data sources; authored test cases and led UAT until stable release.
- Set up role-based access and basic audit logging; prepared user guides and weekly status reports.
- Outcome: single source of truth for portfolio review, faster executive reporting, and clearer risk visibility.

Eterniti Digital Strategy — Digital Out Home Project (Jul 2025 – Present)

Nationwide registry for Out-of-Home/billboard assets to centralize inventory, specs, locations, and contract status.

- Designed data structure (asset attributes, location, ownership, status) and workflows for submission, validation, and updates.
- Built search/filter & reporting views by region/subholding/vendor; established data-quality checks (mandatory fields, duplicate control).
- Coordinated UAT across regions; tracked defects to closure; documented change requests.
- Outcome: consolidated view of OOH inventory, reduced duplication, and quicker decision-making for placements and budgeting.

Angkasa Pura Indonesia — NADIA (Dec 2024 – Feb 2025)

Document management system aligned with ANRI regulations; automated approval workflow; secure access & audit trails with monitoring dashboard.

- Mapped approval workflows, roles, and retention rules; defined acceptance criteria & test scenarios.
- Coordinated RBAC setup, document versioning, and audit-trail validation with dev team.

- Ran UAT, tracked defects to closure, and prepared quick-reference guides for users.
- Outcome: on-time go-live; compliant document routing and end-to-end traceability.

Pertamina — Monitoring & Evaluation (ROI) (Jun 2024 – Nov 2024)

Internal platform for project tracking & real-time ROI analytics; financial DB integration; role-based dashboards.

- Captured reporting needs (ROI, budget, realization); aligned data mapping with finance team.
- Defined calc/logic checks; authored test cases; verified KPI dashboards and access levels (RBAC).
- Delivered training & handover docs; established defect/changes log.
- Outcome: single source of truth for portfolio review; faster decision cycles.
